REGULATION GOVERNING THE GRANTING OF DRAWBACKS—GENERAL

143. No drawback shall be paid on any goods unless the drawback claimed in respect of the goods entered on any one shipping bill or other document shall exceed the sum of four shillings.

144. Drawback shall be payable according to the actual quantity of goods exported, or put on board as stores, or used as the case may be: Provided that where any general allowance for shortage and breakage has been made in accordance with Regulation 70, a similar deduction shall be made from the amount of drawback otherwise payable.

"70. Importers of bottled liquors and oil in lots of not less than five cases may at the time of entry of such goods and before examination thereof elect to claim a combined shortage and breakage allowance of two per cent. of the total quantity entered in lieu of any claim for an allowance in respect of the actual quantity found broken or short. Provided that no such allowance may be claimed in respect of less than the whole of the goods described on any entry or contained in any one consignment."

145. No drawbacks shall be paid in any case where the Collector General certifies that he is not satisfied that any package of goods in respect of which drawback is claimed is identical with the particulars thereof contained in all entries, invoices or other documents relating to such goods or in the case of imported goods, that the package containing the goods has not (except as permitted by law) been opened, or that the package or the goods have not been tampered with while within the Island.

146. No drawback shall be paid in respect of any goods, the value of which in the opinion of the Collector General on account of deterioration or any other cause whatsoever has depreciated so as to render the goods unsaleable at a reasonable profit in the Island, unless the Collector General in his discretion shall in any special circumstances otherwise direct.

147. No drawback shall be paid on any goods unless the person presenting the same for examination shall furnish the Proper Officer with such samples as he shall require for purposes of test or otherwise, and shall duly assist such Officer in examining and taking an account of the same.

148. It shall be a condition of the granting of any drawback:—

- That the goods are not prohibited by any law or regulation from exportation or from the allowance of drawback.
- That the goods at the time of importation are completely enclosed in packages to the satisfaction of the Proper Officer, or, if not so enclosed, consist of identifiable single units, or if in bulk, are capable of measurement and/or identification and are measured and/or identified (as directed by the Collector General) with the particulars shown on the import entry and on the invoices and other documents relating thereto.
- That if in regard to any particular description of goods or any particular consignment the Collector General shall so direct, each package or unit shall on importation be marked or secured prior to the delivery thereof to the importer and shall be kept so marked and secured until such time as the Collector General shall require.

Insert a detailed Account of all the Taxes and Duties collected within your Government; specifying the several Authorities under which the same have been levied, whether by Act of Parliament, by Order of the King in Council, by Act of the Colonial Legislature, or by other Authority of whatever description; also an Account of all the established Fees received by the respective Officers, showing the Authorities under which the same are demanded.

This section may be sub-divided, if thought desirable by classifying Legal Fees and Municipal Fees under separate sub-heads.

The section should be preceded by a separate index.

Asterisks or other similar signs should be inserted to show whether the various fees are payable (a) into the Public Treasury, or (b) for the personal use of individual officers, or (c) out of the Public Treasury. An explanatory note on this point should appear at the beginning of the section, thus:—

“ Fees marked thus (*) are paid into the Treasury for public use.
“ “ “ (*) are received and retained by the Officer
“ “ “ (*) are received by the Treasury but paid to the Officer or Officers concerned.”

Details of postal rates, telephone rates, Government Gazette subscription rates, and other similar sources of revenue should be entered in the section of the Blue Book which deals generally with the subject to which they relate. This section should merely contain the heading of the rates in question and indicate where the details are to be found, thus:—

“ Postal Rates (see POST AND TELEGRAPH).”

The Customs Tariffs in respect of both Imports and Exports are the most important items of taxation and should be placed first. In the statement of Customs Duties “*Ad Valorem*” and other general duties should be printed in capital type, thus:—

“ *AD VALOREM*—On all goods not specifically charged with duty, etc.”

The “value” on which *ad valorem* duties are payable should be clearly stated in front of the Customs Tariff. The authority for the “value” should also be indicated.

The list of goods of which the importation or exportation is prohibited should follow immediately after the Customs Tariff.

Under the New Constitution granted to Jamaica by the Jamaica (Constitution) Order in Council 1944 dated the 27th of October, 1944 and proclaimed by the Governor on the 20th of November, 1944, the Privy Council consists of the Colonial Secretary, Officer Commanding the Troops (if not below the rank of Lieutenant Colonel), the Attorney General, the Financial Secretary and Treasurer, and two nominated members who shall be persons not holding office of emolument under the Crown and who shall vacate their seats at the end of three years.

Executive Council—consists of the Governor as Chairman, three official members (the Colonial Secretary, Attorney General and Financial Secretary and Treasurer), two nominated members (who shall be members of the Legislative Council and be persons not holding office of emolument under the Crown and are nominated by the Governor), and five Elected Members (who shall be members of the House of Representatives, elected to the Council by the House).

Legislative Council—consists of three ex-officio members (the Colonial Secretary, the Attorney General and the Financial Secretary and Treasurer), not more than two official members, (who shall be persons holding office of emolument under the Crown) and not less than 10 unofficial members (who shall be persons *not* holding office of emolument under the Crown).

House of Representatives—consists of 32 members one for each of the 32 constituencies into which the Island is divided. Election is for a period of five years on the basis of universal adult suffrage, and qualification for election in any constituency is that the candidate must be a British subject, 21 years of age or over and qualified for registration as a voter, and must have been ordinarily resident in the parish in which that constituency is comprised for twelve months immediately preceding the day of election.

NOTE:—Vegetables vary greatly in the nutritional value, Turnips, Okras, Spinach, Carrots, Beets, Onions and Green Peppers should be used as much as possible; the green tops of Turnips and Beets and the leaves of Sweet Potatoes and Peanuts can be eaten as well as Spinach, and are very valuable vegetables as they contain amounts of certain mineral salts and vitamins.

The Yellow variety of Sweet Potatoes yields more calories than Yams, and contain more Vitamin A than either the white variety or Yam. Peanuts are a most valuable food and should be cultivated; they contain much in protein of high biological value and much fat, and are rich in Vitamin B complex, and in addition their leaves are valuable as vegetables.

The Jamaica Mental Hospital is part of the Medical Services of the Island and is under the general supervision of the Director of Medical Services. It also receives patients from the Cayman Islands and the Turks and Caicos Islands.

BOARD OF VISITORS

A Board of Visitors, appointed by the Governor meets quarterly, or oftener if necessary, at the Hospital to inspect and examine the books and accounts, if they think fit, to inspect the wards, stores and other places, and to receive and investigate complaints made by or against any member of the Staff or patient.

The Board may make a report on any matter to the Governor. Members of the Board visit the Hospital each month, usually at short notice. The Director of Medical Services is always Chairman of the Board.

LUNACY LAWS

No separate provision is made for Mental Deficiency. Provision is made for the reception of both Voluntary and Certified patients. Voluntary patients must apply to the D.M.S. for admission for a period of one, two or three months. Security must be given for the payment of fees. A Voluntary Boarder must be discharged within 24 hours of giving written notice to leave.

Private patients (excluding Voluntary Boarders) are received only on an Order signed by a Resident Magistrate and accompanied by two Medical Certificates.

In case of Urgency a private patient may be admitted on an Order signed by a near relative and accompanied by one Medical Certificate. This Order remains in force for seven days, during which steps must be taken for the issue of a Reception Order signed by a Resident Magistrate and accompanied by a further Medical Certificate. If the Petition is rejected the patient must be discharged. Every Private Patient has the right to interview a Resident Magistrate either before or after admission, unless the Senior Medical Officer certifies that such an interview would be prejudicial.

Non-contributing patients are admitted only under certificate. One Medical Certificate and an Order signed by a Justice of the Peace are necessary. Patients are also received under certificate from Public Institutions on two Medical Certificates only, one signed by the Medical Officer of the Institution and one by another Medical Officer who must certify that he has seen the patient on at least two occasions.

The Mental Hospital also receives on the Warrant of the Governor, Criminal, Lunatics and other persons of unsound mind who, having been charged with commission of felony are acquitted on the grounds of insanity, or have been found to be insane on arraignment. Such persons are discharged only by order of the Governor.

The Discharge of all other patients is at the discretion of the Senior Medical Officer. At the discretion of the S.M.O. patients may be allowed to be absent on 28 days Trial provided some person undertakes to take charge of and care for him and return him at the end of the Trial Period, which may be extended.

Provision exists for an Appeal to the Governor by, or on behalf of any patient whom the Senior Medical Officer may refuse to discharge. The Senior Medical Officer may grant travelling and subsistence allowance to Discharged Patients to enable them to reach their homes. Any patient who effects his escape may be taken within fourteen days. Parole outside the grounds of the Hospital is not permitted by Law.
